

PEER REVIEW FORM

1. Please, read the Reviewer Guidelines received with the anonymous manuscript and with this Peer Review Form, before starting.
2. A confidentiality agreement on the originals assessed is required.
3. All articles undergo double-blind peer review, therefore identity of authors and referees will be anonymous.
4. If a referee has reasons not to draw up a report or there is any conflict of interest, he/she is asked not to prepare it and provide information on the circumstances to the Journal.

TITLE

REFEREE

Comprehensive assessment of the content

In each of the following decide whether each questions applies to the reliability, method, structure, and form of the text assessed and then highlight the number or option in bold or color (5 being the most and 1 the least):

The title of this report clearly expresses its objective

It is an original contribution

The subject is of relevance and interest

It shows consistency between hypothesis and conclusions

It uses an appropriate methodology to achieve its objectives

It is properly integrated into a theoretical and conceptual framework

Sources are relevant and they have been used properly

Relevant and up-to-date bibliography has been used

The writing is correct and the presentation of ideas is clear

The structure is correct

Further comments

I suggest the manuscript be:

ACCEPTED

ACCEPTED WITH MINOR CORRECTIONS

RESUBMITTED after a major revision and a second round of review is necessary

REJECTED

SUGGESTED CHANGES AND CORRECTIONS

Please, do not exceed the space provided below for your suggestions, which should be focused on relevant aspects, taking into consideration that the author must implement them within a limited period of time.

1. Formal aspects (writing, bibliographic references, abstract, text organisation, tables and graphs design, etc.):

2. Content aspects (consistency, relevance, appropriateness, errors, etc.)

CONFIDENTIAL COMMENTS TO THE EDITOR, if necessary

SIGNATURE

(The referee can sign in the box if has an e-signature. This report is confidential and will not be sent to the author of the manuscript).
